Installation Guide

This download contains a **Dynamic Desktop wallpaper in .DDW format** — a set of sixteen 5K images that follow the light of a real place across a full day, from first light to midnight. It runs on **WinDynamicDesktop**, a free companion app for Microsoft Windows, which matches the wallpaper to the sun where you live.

You're free to use this wallpaper on every computer you own. Please don't redistribute the wallpaper or the images in it — if you'd like to share it, point a friend to 24hourwallpaper.com. The complete license is on the last page.

If you run into trouble, have feedback, or are unsatisfied for any reason, write us at support@24hourwallpaper.com — we're a small independent team, we read everything, and we're happy to help or provide a refund.

1 Install WinDynamicDesktop

Download and install **WinDynamicDesktop** (free). The latest version is recommended; version 3.0 or later is required.

3 Extract your download

Your wallpaper arrived as a zip, typically in your **Downloads** folder. Right-click it and choose **"Extract All..."**. Inside you'll find a **.DDW** file — that's the wallpaper itself — alongside this guide.

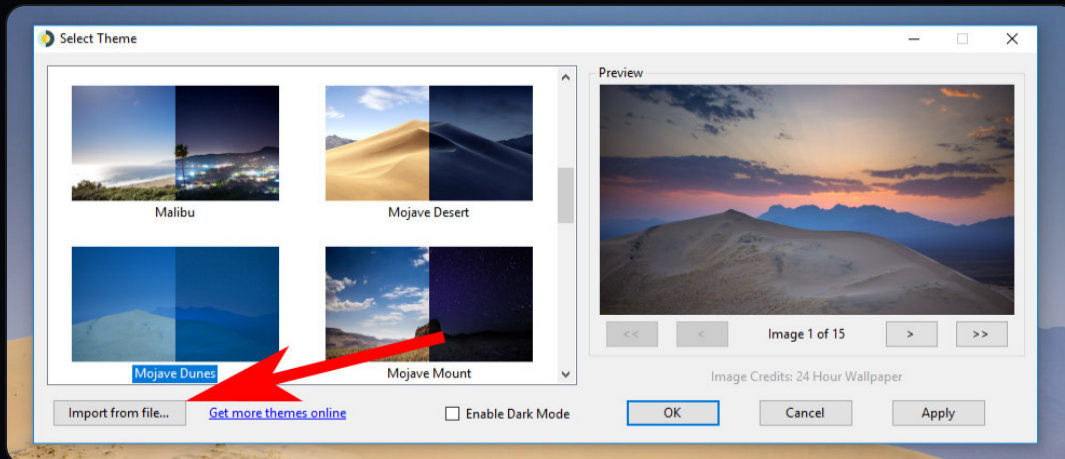

4 Open "Select Theme..."

Click the WinDynamicDesktop icon in the system tray and choose **"Select Theme..."**.

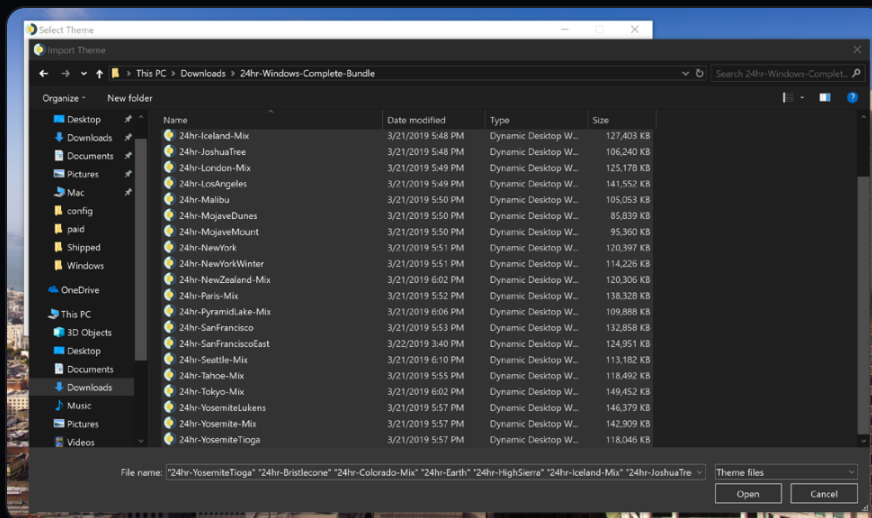

5 Click “Import from file...”

In the Select Theme window, click “Import from file...” in the lower-left corner.

6 Choose the .DDW file

In the file dialog, select the **.DDW** file you extracted — for example, **24hr-Earth.ddw** — and click **Open**. If the import fails, an error is shown; try once more, then write us at support@24hourwallpaper.com.

- ◆ **Shortcut:** you can simply double-click a **.DDW** file in Explorer to install it, once Windows associates **.DDW** files with WinDynamicDesktop.
- ◆ **Several wallpapers?** Hold **Shift** while clicking to select many **.DDW** files at once — they all import together.

7 Select your wallpaper and click “Apply”

Your new wallpaper now appears in the theme gallery. Select it, click **Apply**, and the desktop takes over from there — sixteen images, timed to your sky, around the clock.
